

FOR IMMEDIATE RELEASE

## **IMPLEMENTERS Announces Climate Forward Summit 2026 to Drive Collective Climate Action in Ghana**

**Accra, Ghana** – IMPLEMENTERS, a leading not-for-profit project management organisation, is pleased to announce the 2026 edition of the **Climate Forward Summit (CFS 2026)**. The event will take place on **9th July 2026** at the **Executive Conference Centre, GIMPA**.

This year's summit will bring together key stakeholders from government, the private sector, civil society, development organisations, and the general public to focus on practical solutions to Ghana's growing climate challenges under the theme:

**“The Circular Transition: Integrating Waste-to-Wealth Pathways and Clean Energy for Ghana's Green Industrialisation.”**

As climate challenges continue to grow, Ghana is facing increasing problems with plastic, textile and electronic waste. These issues are affecting the environment, public health, and the economy. CFS 2026 seeks to address this by creating a space where stakeholders can move beyond working in isolation and collaborate on practical, lasting solutions grounded in circular economy principles.

The Climate Forward Summit is a flagship climate event by IMPLEMENTERS, created to encourage dialogue and build strong partnerships within Ghana's climate space. The first edition brought together stakeholders from sectors such as extractives and agriculture to begin aligning efforts toward climate action. This second edition builds on that progress, with a stronger focus on turning Ghana's waste challenge into an opportunity for a green and sustainable economy.

CFS 2026 will feature an engaging programme, including:

- High-level **panel discussions** and **keynote sessions** with leading climate experts and policymakers
- Interactive **roundtable sessions** focused on practical solutions
- **Exhibitions** showcasing innovations in recycling, waste management, and sustainable production
- **Networking sessions** to encourage partnerships and collaboration

IMPLEMENTERS invites organisations, development partners, private-sector institutions, government agencies, civil society organisations, and individuals interested in climate action to **partner with, exhibit at, and participate** in this landmark convening.

For partnership, exhibition, and media enquiries, please contact: **communications@theimplementers.org** or **020-0119-132 / 050-144-8770**. Further details on registration and participation can be found on our website, [www.TheImplementers.org](http://www.TheImplementers.org)

Join us at the Climate Forward Summit 2026 as we move from conversation to collective action, shaping a more sustainable and resilient future for Ghana and beyond.

### **About**

### **IMPLEMENTERS**

IMPLEMENTERS is a development organisation working across education, climate change, and employability. The organisation partners with institutions, philanthropists, and communities to deliver impactful and sustainable programmes across Ghana and Africa.
